

## MISSION

The Unions and Companies of the Pharmaceutical Industry Labor-Management Association recognize that a strong domestic pharmaceutical industry providing innovative, affordable medicines is vital to the American People and the Nation.

### The Association resolves to:

**Work together** on legislative, regulatory and other key issues affecting the pharmaceutical industry and organized labor in the national interest;

**Discuss** areas where there is disagreement between the parties in a committed effort to find common ground and mutual benefit;

**Investigate** the issues affecting access to and affordability of medicines;

**Focus** on maintaining strong stateside employment and research leadership for the U.S. industry.
